Warwick, RI 02886

Re: ETICAM facility, Fernley, NV, EPA ID# NVD 980 895 338

Dear Mr. Donnelly:

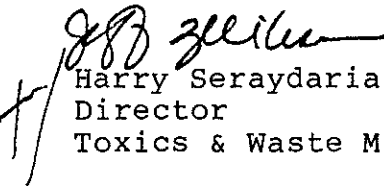

The signing of the Hazardous and Solid Waste Amendments of 1984 (HSWA) on November 8, 1984, broadly expanded the authority of the EPA to regulate management of hazardous wastes under the Resource Conservation and Recovery Act (RCRA). Under HSWA, facilities requiring RCRA permits must submit information regarding units on the facility property which have at any time received solid wastes. Enclosed is a copy of "Information Regarding Potential Releases from Solid Waste Management Units", which describes the information required. Also enclosed is a HSWA "Fact Sheet" and a copy of HSWA. This information must be submitted within 15 days. It is your responsibility to ensure that the information adequately addresses all applicable requirements of HSWA. Send two copies to EPA (Mail Code T-2-2) at the address above and two copies to LaVerne Rosse, Nevada Division of Environmental Protection, Capitol Complex, Carson City, NV 89710.

All information submitted will be subject to public disclosure, to the extent provided by RCRA and the Freedom of Information Act, U.S.C. Section 552 and EPA's Business and Confidentiality Regulations, 40 C.F.R. Part 2 (in particular, 40 C.F.R. 2.305). To claim confidentiality, you must clearly indicate by marking "Confidential" the specific items of information to which the claim applies. You must also submit a written substantiation of such claims at the time of the filing. Information covered by a confidentiality claim and substantiation will be disclosed by EPA only to the extent and by means of procedures set forth in 40 C.F.R. Part 2. If no claim of confidentiality or no substantiation accompanies the information when it is submitted, EPA may make the information available to the public without further notice to you.

Note that these submittals must also contain the certification statement and fulfill the signatory requirements of 40 C.F.R. 270.11. Failure to submit the information by the specified due dates may result in enforcement actions pursuant to Section 3008 of RCRA.

If you have any questions regarding this matter, please contact
Claire Elliott of my staff at (415) 974-8388.

Sincerely,

Harry Seraydarian
Director
Toxics & Waste Management Division
